

# NIEDERMAYR

A winery that tests boundaries. Rooted in Eppan Berg, shaped by courage, respect, and a deep love for craftsmanship. This is where wines are created that don't pretend to be anything – honest, distinctive, and deeply connected to nature.

## STORY:

The story begins in the mid-80s with Rudi Niedermayr – a pioneer of organic viticulture in South Tyrol. Since then, Hof Gandberg has shaped the way we work and think. Today, Marlene and Thomas carry the vision forward: organic, independent, and responsible. Our philosophy is simple – to bring out the best in nature without forcing it. Our wines tell stories of time, craftsmanship, and origin.

## FAVORITE MOMENTS:

Honest conversations over a glass of wine. Simple meals shared with people you value. The small, real moments – without staging.

## LOCATION:

Our winery is located in South Tyrol, in the small village of Eppan Berg, about 15 minutes south of Bolzano. At the foot of the Gandberg, three generations live and work together – surrounded by greenery, where farming, winemaking, and rural life go hand in hand.

## PERFECT FOR:

People who don't just drink wine, but want to understand it. For those who ask questions, stay open to new things, and don't judge quality by the label. And also for those who simply love to enjoy.

## VALUES:

Courage & self-determination, respect for people, animals & nature, craftsmanship & knowledge, time & patience.
